HOW IT WORKS >>

The streamlined MBA core covers business fundamentals in eight disciplines, plus a project-based consulting experience. Electives form the majority of your course work, giving you the ability to specialize, pursue a concentration, or explore a new area. Part-time students can complete the MBA in as few as 18 months, or progress at their own pace. Most students graduate within three years.

“I didn’t want to go back to school for a typical MBA, I was looking for real-world skills instead. It’s refreshing to go to school at night. I love the people I’ve met at Babson, they keep me inspired and engaged.”
