5 PILLARS OF BCSN

BCSN PLATFORMS

BabsonCollaborative.org/bcsn

The Babson Collaborative invites students from member institutions to establish a local chapter of the Babson Collaborative Student Network (BCSN) at their school. BCSN chapters are student-lead organizations that bring together students who want to connect with other chapters around the world for educational, cultural and social interactions. The Babson Collaborative will share resources, create incentives, and create platforms for chapter leaders to make connections, but the success of each BCSN chapter is determined by the engagement of each chapter's leadership team and members, with the guidance of a faculty advisor.

NETWORKING

Activity 1: Icebreaker

- You choose which one(s) to answer.
- You can all answer the same ones or each person can choose a different one.

If you could learn one new skill, what would it be?
What's your favorite place of all the places you've traveled?
What is your favorite TV show or movie?
What are your primary hobbies?
What is the origin of your name?
What was your favorite game or toy as a child?
What is the most unusual food you've ever eaten?

Activity 2: BCSN Program Ideas

Work together to come up with an idea for a program that your BCSN Chapter could offer this year (ideally in collaboration with another BCSN Chapter)

Activity Parameters:

- Must be realistic/achievable given your existing resources
- No-cost
- Be engaging and interactive
- Virtual (ideally you would co-plan the program with another Chapter and it would be available to other Chapter members, which means it would have to be accessible virtually)

Choose one person to share your best idea - briefly
