

COIL RESOURCES FOR COLLABORATIVE MEMBERS

COIL (Collaborative Online International Learning) is a pedagogical model that connects classrooms across countries and institutions for shared, project-based learning. Through cross-cultural collaboration and co-teaching, students engage with diverse perspectives while building global competencies. COIL expands access to international experiences, serving as a powerful tool for increasing virtual global mobility in higher education. The Babson Collaborative can serve as a powerful platform for future COIL projects across the globe. We are committed to providing resources and facilitating connections between members which could lead to future collaborations.

3 Steps to Learn About & Implement a COIL Project

1. Watch the Webinar: Empowering Future Entrepreneurs Through COIL

Discover how COIL projects can prepare students for the global market by integrating international perspectives into entrepreneurship education.

2. Enroll in the Babson College COIL Course

Register for a free self-paced asynchronous Canvas course created by Babson College on how to create and launch a COIL project. The course opens four times a year, with access for 60 days.

3. Attend COIL Matchmaking Event (Live, Virtual)

This fast-paced networking event is for professors who are ready to create a COIL project. When you register, you will provide details about the course in which you plan to embed a COIL project. Let's see if we can make a match and find you a co-teacher among our members. You are not required to take the COIL course to attend this event, but it is advised if you are not familiar with COIL.

COIL Matchmaking
Thursday, May 21, 2026
9:00 AM Eastern Time
